- Learn about the services I offer
- Access previous newsletters
- Find out what makes *Speech With Alyssa* different!

## Now offering...

### Speech & Language Therapy at the ranch!

*Utilizing horses in unmounted  
equine facilitated activities!*

Benefits include:

- Decreased stress by targeting goals in a calm & serene, outdoor setting
- Increased confidence due to the unconditional acceptance & non-judgmental presence of our horses
- Increased motivation as it doesn't look or feel like therapy
- Practice in a natural setting helps with carryover of skills

*Call me to find out more!*

## Parent Testimonial:

*"Alyssa has worked with our son since launching her practice and we could not be happier with both her methodology and early results. Not only has his speech improved so that he is more easily understood, but he loves when Alyssa comes to the house for a session. She really understands her clients and their families and goes above and beyond to make sure speech therapy is fun. Highly recommend her for anyone seeking very personalized, professionally evaluated speech program. Best of all, she makes house calls."*
